

ABOHN Reference List Effective 9-1-2024 For the Case Management (CM) Examination

The American Board for Occupational Health Nurses, Inc. has prepared the following list of references that are examples of resources that may be used to prepare for the certification examination. This is not an all-inclusive list, but one that represents the types of materials that may have been used as references for the examination items. Applicants are advised to identify the areas of content in which they feel less knowledgeable and to focus their study on those areas, as well as a general overview of the content described in the Test Blueprint/Exam Content Outline (ECO). Useful references may be obtained from professional organizations and public and university libraries. ABOHN neither sells, nor lends references. **ABOHN cannot recommend any specific course(s) or other resources that may prepare you for the examination.**
